

Crafted for Hawaiian Hideaway

Tropical Leaf Door Carvings

Architectural Furnishings by Tempo (AF) was commissioned to design and fabricate these exotic and stunning banana leaf carvings to be inset into interior doors throughout a custom home in Honolulu, Hawaii.

AF created a total of 15 doors, including five pocket doors, of various sizes in solid mahogany for the luxurious hideaway home. Complementing the home's tropical bungalow atmosphere, each five-foot tall banana leaf is meticulously hand-carved with exacting craftsmanship, from stalk to tip. The life-like result blends seamlessly with the home's breezy island décor.

Architectural Furnishings by Tempo provides its clients with exceptionally artistic and architecturally pure woodwork that enriches their daily lives. We undertake projects of the most challenging and intricate kind and have become nationally recognized as a foremost designer of European and contemporary woodwork. At AF, we're always "Thinking Outside the Cabinet."
