## Contemporary Elegance with a Frank Lloyd Wright Flair

Architectural Furnishings by Tempo pulled out all the stops for this contemporary beach house in Laguna Beach, California.

Acutely understanding her client's contemporary artistic tastes, Jami Martin of JD Martin Designs in Laguna Beach commissioned AF to design and create a dynamic home office using exotic hardwoods and the creative brilliance of the Modernist movement.

Fashioned after Frank Lloyd Wright's famed stained glass window designs of the 1930's, and borrowing from the style of Piet Mondrian, AF designed a striking display wall for the home office. In a harmonious balance of function and beauty, the display wall integrates a solid wenge shelf and frames for the glass case and plasma TV. Meticulously-crafted strips of wenge arranged on the wall lend the Frank Lloyd Wright flair. The bottom portion of the display wall has inconspicuous but voluminous storage capacity, accommodating 20 file drawers with artistically diagonal anigre veneers.

Photography by Jeri Koegel

Across the room, a sweeping, oval-shaped desk boasts a rich maple burl countertop with solid wenge trimming and an anigre base.

With flawless FLW style, Architectural Furnishings captures the contemporary elegance that emanates from this coastal estate.
